MONDAY, AUGUST 6, 1897.

Home Market for the Best.

Democratic tariff theories have received a tremendous shaking up in the past few years. Indeed the attitude of the party towards the tariff question has become so complicated that even the leaders are unable to agree as to what actually constitutes the tariff "faith." This trouble-some condition of affairs was made palpably apparent during the recent debate in Congress when what has heretofore been put forth as the very bedrock of Democratic tariff doctrine, "free raw materials" and "tariff for revenue only," were openly repudiated in both branches of Congress.

The effect of all this has been, of course, to materially strengthen protectionism inasmuch as the Democrats are simply on account of the fact that the Republicans' policy.

Now free trade papers are demonstrating the great protection truth.

For instance past three papers have laid

stress upon the growth of our ex-

port in connection with our ex-

port trade have demonstrated just what

the Republicans' policy.

Just as the Democrats were experts in the

work of destruction the time of feeling

for this respect immediately disappeared

when it came to a definition of their own

policy.

The effect of all this has been, of course,

to materially strengthen protectionism

inasmuch as the Democrats are simply

on account of the fact that the Republi-

cans' policy was best market in the world.

Prospects have not followed in the wake

of this market at home the

markets of the world have equally failed

in prosperity to our people.

It is necessary to send the very good

news that the Republican policy would

be continued at home to a force

of 20,000,000.

At the same time our own

people had to content themselves with a

cheap product or pauper labor

force. This was not the prevailing

condition under the old Republican

party which this country was at

very zenith of its prosperity. It was

part of the Democratic free trade poli-

cy that the abolishment of which

caused more trouble in this coun-

try than any other set of Congress for

re.

University Matter.

Constituent Walker's open letter will

call toward setting public opinion

right in connection with the Brown

University matter. This question has

attracted wide attention. Much of the

content has been intentionally decept-

ive, while other writers have based state-

ments on inadequate information.

For instance, one paper says that the

views of the Corporation have brought to

the attention of the public in a differ-

ent way than by a formal letter, the

whole might have been avoided. An-

other paper declares that the appoint-

ment of a committee of the Board of

Trustees to confer with President An-

drews was entirely proper, but that the

committee blundered when it assumed to

be the president a farcical letter.

It appears that even with those

papers which do not endorse the attitude

of President Andrews this formal letter

is considered as affording him his sec-

ond chance for grievance. It is just here that

Constituent Walker throws interesting

light upon the controversy. The Board

of Trustees had no intention whatever of

making the question public property. A

committee waited upon the president to

consider the matter, and then imme-

diately rushed into print before the con-

stitution could take any action as a body.

If the matter has been given undue public

ity it must be attributed to President

Andrews and his foolish friends who

have paraded themselves in print, the

contrast between his attitude and that of

the trustees, warranting the remark of

Constituent Walker that "it shows how

egregiously Mr. Andrews is seeking the

crowns of martyrdom in the cause of the

immediate and enfeebled colleague of sit-

ter." In conclusion Constituent Walker

says:

"Certainly Mr. E. Benjamin Andrews

has an undoubted right to speak his

mind without fear or criticism by

any one, but, justly or unjustly, he is liable

to the taunts of his fellow citizens

for his conduct, and, if he is not

able to justify his actions, he is liable

to the censure of the corporation.

He has a right to speak his mind,

but, if he does not do it in a proper

and dignified manner, he is liable to

the censure of the corporation.

He has a right to speak his mind,

but, if he does not do it in a proper

and dignified manner, he is liable to

the censure of the corporation.

He has a right to speak his mind,

but, if he does not do it in a proper

and dignified manner, he is liable to

the censure of the corporation.

He has a right to speak his mind,

but, if he does not do it in a proper

and

SPECIAL NOTICES.

LOCAL MATTERS.

TEAM STOLEN.

FOR SUMMER OUTINGS.

From the Barn of Sanford C. Smith, on Saturday, August 11, 1897.

Persons going out of town for the summer months can have this Wind mailed to their address for 15 cents per month.

On Sunday morning about 6 o'clock Mr. Stanford C. Smith, whose farm is on the Oldtown road, near the "Griffith" real estate, was out from the building of the club house at Oldtown by the Niles Club. A large crowd was put up on Wednesday building a road from the Orio across to the shore of the lake, where the club house will be erected. The distance of two miles and a half was to be covered Saturday night.

He and a crew of men followed him on Saturday night, they went to bed early, all being very well tired out, with the result of his work, and they naturally soundly. About 10 o'clock some of them in the house heard a team being driven by a gun rapidly, but nothing was thought of it at the time. It may have been the stolen team and it is not, I think, possible to tell at present.

Yesterday morning it was found that somebody had entered the barn, which was not securely fastened, and made away with the team. It was evidently some who had well acquainted with matters at the Smith farm for he selected the team which Mr. Smith regards as his best.

He chose the Bangor buggy from several carriages and wagons in the barn. There is a watchful about the place but if he made any noise nobody in the house heard him, and the thief or, they were enabled to get away with a long start without any difficulty whatever.

The stolen animal is a gray mare, about eight years old and weighs 1,000 pounds. The carriage is a Bangor covered buggy, of the Thomas make, and nearly new. The horses are now, however, of light color and there was a plain lap robe in the carriage.

The master was reported to Chief of Police L. W. Gilman and he immediately took active steps to apprehend the thief and find the stolen team, if possible.

The Jewish synagogue which will be erected on Center street will be a building 50x60'. Over the front entrance of the auditorium there will be a gallery, and in the rear there will be a 12x12' room for a pulpit, while in the center of the auditorium will be an 18x18' feet square. In the basement there will be a hall, in front, together with locker room, and in the rear there will be living rooms. The windows will have circular tops and leaded glass.

The Eleventh Maine Regimental Association has secured reduced rates on all railroads and boats in the State for their 20th annual reunion at Oldtown on August 11, 12, 13. The fare for the round trip from Bangor is \$3.00; ticket good for 10 days. The members from Bangor and vicinity accompanied by their families will be at the reunion.

The following table gives the weather conditions as shown by the thermometer and barometer at Miller's place.

DIED FROM INJURIES.
Lawrence T. Ware passed away on Saturday.

Lawrence T. Ware of North Bangor, who has been employed at the mill of F. W. Ager & Co., in South Brewer, and who was badly injured on Friday, died on Saturday afternoon.

He was engaged at the edge and was arrested on the charge of killing a deer. The finding of a body in a cedar wood, and the guard who was shot and killed, was brought to the police station as he answered the description very well. Mrs. Ware said the man had an harmonica without a case, and was found upon Peimay, but Mrs. Ware could not identify him. Later another, a man named Alexander McDonald, was taken to the station. Strange to say he also had an harmonica without a case, but Mrs. Ware could not tell him who was the man who robbed her. During the forenoon the police found Mrs. Ware's hat in the grass by the river bank beyond the toll bridge.

The Festival.

The foundation for the Maine festival building in front of Maplewood Park is rapidly nearing completion and in a short time will open the wooden structure will begin. The foundation is very solid and care will be taken with the building that it may also be so strong and substantial that it will easily support any crowd which may assemble there during the festival or after.

The exact date for the festival has not yet been decided but it will occur sometime in October as now planned. With Noddy, a number of other artists of high class, Sella's orchestra, and the vigorous Prof. Chapman as director, the outlook for the festival is very promising. The four days of the festival will give a variety of exciting and enjoyable entertainment.

The rehearsals which have been in progress during the spring and summer and the successful festival concerts which have been given in various places indicate the marked interest in the big festival, and would be indicative of the final success of the festival. It will undoubtedly be attended by thousands of people.

Three Days' Excursion.

The Bangor & Boston Steamboat Company another column announces a three days' excursion which will undoubtedly attract a large number as it is a most enjoyable trip.

A similar trip last year was very successful. This includes the round trip to Northport and one day at the West End Hotel with all bill paid.

The excursion will be given the best the house affords. The arrangements are as follows:Leave Bangor at 7:30 a. m., stop at the hotel, arrive at Bar Harbor at 9 a. m. supper and room at the West End second day at Bar Harbor; three meals and room at the West End third day at Bar Harbor at 7:30 a. m. breakfast and dinner on board the boat.

Arriving in Bangor at 2 p. m.

In this season the trip to Bar Harbor by water is very enjoyable. This arrangement is to go all through the month except on every Friday as then there is no steamer returning from Bar Harbor Sunday. Those who desire further particulars should address George H. Barbour, president, H. W. Barbour, manager, or Col. F. D. Pulsifer, general ticket agent. Tickets can be obtained on the steamer Cimbria or Tremont.

Death of A. D. Page.

The Measha, Wis., Barge of July 14, was following Amos Dunning's Page, a 100-ton freighter, a lumber barge, and struck her, causing a hole in the bow and stern of Page, which sank in the water.

John D. Porter, Duxbury, Mass., and Gilbert S. Vickery, Engineers, of the City of Bangor, were selected by an order of the City Council to inspect the damage and repair the vessel.

John D. P. Winkley, Street and Gilbert S. Vickery, Engineers.
